

Management Policy Manual

Title: Environmental Policy Statement

MCP No.: 7-2

Environmental Policy

Calder Limited recognises the environmental impacts caused by its activities. It is committed to reducing these impacts locally and globally to the minimum reasonably practicable.

The above commitment shall be realised through:

- Recognition and evaluation of Calder's environmental aspects and impacts.
- Development of feasible objectives and targets for reduction in pollution.
- Compliance with, and arrangements to meet, the company's legal obligations, ensuring all statutory limits are adhered to or improved on.
- An approved, documented, Environmental Management System to ISO14001.
- Continuous monitoring of environmental indicators to ensure the effectiveness of the Environmental Management System.
- Regular review of the Environmental Management System to create improvements in environmental performance.

Implementation

Implementation of this policy shall be through communication, involvement and training of employees in the aims, rationale and objectives of environmental management.

This policy statement shall be communicated to employees, contractors, customers, visitors and the public by displaying it in accessible areas.

Signed:

Managing Director
